Reduction print of the 35 mm. motion picture made for the CBS television program The search.
With film users' guide.
Summary: Discusses an approach to the diagnosis and treatment of deafness in children, based on the theory that there is rarely a total loss of hearing. Shows the procedures of the Hearing and Speech Center at Johns Hopkins University in the diagnosis, treatment, and training of children in whom hearing difficulties have been detected. Points out that children with hearing disabilities can lead full and useful lives if a guided training program is begun early in life.
Credits: Producers, Irving Gitlin, Stephen Fleischman, Norton Bloom; director and script writer, Ai Wasserman; narrator, Charles Ramine; photographer, Frank Follette; film editors, Sidney Katz, Ralph Rosenblum.

Johnson and reconstruction (*Motion picture*) Teaching Film Custodians, 1950.
33 min., sd., b&w, 16 mm.
Excerpts from Metro-Goldwyn-Mayer's 1942 motion picture released under the title Tennessee Johnson; prepared for school use by the Audio-Visual Committee of the National Council for the Social Studies.
Summary: Dramatizes the conflict between President Andrew Johnson and the Republicans in Congress over policies of reconstruction. Traces Johnson's career from the time of secession showing him as the Union military governor of Tennessee, as Lincoln's running mate in 1864, and as President. Describes impeachment charges and acquittal, and shows Johnson's return to Congress as a Senator seven years later.

Judah Touro: friend of man (*Filmstrip*) Union of American Hebrew Congregations, 1954. Made by Victor Kayfetz Productions.
36 fr., color, 35 mm.
Eastman color.
With teacher's guide.
Summary: Drawings are used to present a historical account of the life and philanthropic deeds of the American Jew, Judah Touro. Explains that Touro, who became a wealthy New Orleans merchant after the War of 1812, was responsible for many projects, including the completion of the Bunker Hill Monument, the organization of a hospital during the yellow fever plague of 1858, and the establishment of the first synagogue in New Orleans. Shows that Touro's generosity to religious, educational, and charitable institutions has insured the continuation of his philanthropic projects.

The King and I (*Motion picture*) Twentieth Century-Fox Film Corp., 1956.
133 min., sd., color, 35 mm.
CinemaScope 55. Color by DeLuxe.
Based on the musical play of the same title by Richard Rodgers and Oscar Hammerstein, II, and on the book Anna and the King of Siam, by Margaret Landon.
Summary: A musical comedy-drama. A gentle but plucky English widow who, with her ten-year-old son, goes to Siam in 1862 to educate the King's wives and children in the ways of western culture subtly influences the volatile King, whose avidity for scientific knowledge and enlightenment often conflicts with his traditional arrogance and his adherence to the semi-barbaric customs of his country.

Latin America, its history and its heroes. Part 2 (*Filmstrip*) Popular Science Pub. Co. Released by McGraw-Hill Book Co., 1955.
50 fr., color, 35 mm. (Latin America, yesterday and today)
A Richard Nelson travel strip.
Eastman color.
With teaching guide.
Summary: Using captioned photographs, drawings, and maps, follows events in the liberation of central and southern South America and Mexico from Spanish and Portuguese rule. Shows how San Martin freed Argentina and collaborated with O'Higgins in liberating Chile, and traces the course of independence to the Ecuador-Bolivia area, where San Martin, Bolivar, and Sucre led the fight. Points out that in Mexico the war for independence was led by Indians, showing the roles played by Father Hidalgo, Morelos, and Juarez. Traces the ill-fated French attempt to place Maximilian on the throne of Mexico, and his defeat by Juarez. Follows the careers of the Emperors Pedro I and II as rulers of a Brazil freed from Portugal.

Let's discuss it (*Motion picture*) Canada Dept. of Citizenship and Immigration, Ottawa. Made and released by National Film Board of Canada, 1956.
29 min., sd., b&w, 16 mm.
Summary: To encourage more people to express themselves at meetings of their neighborhood groups, shows a Home and School Association whose members tend to keep their ideas to themselves until after the meeting. When a study group is formed to overcome this problem it learns the do's and don'ts of stimulating discussion, and examines the role of the leader in fostering discussion among members and in maintaining direction toward the goal of the group. Demonstrates and discusses common faults—the tendency to wander, the distracting member, and what to do with the over-eager speaker.

Let's talk about films (*Motion picture*) National Film Board of Canada, Ottawa, 1953.
16 min., sd., b&w, 16 mm.
French version released under the title Chad forum.
Summary: Discusses some of the problems encountered by the group leader of an unresponsive audience, and how the problems may be overcome. A group leader tries to recognize the factors leading to successful film discussion by observing an audience actively discussing a familiar film. In retrospect one of the group recalls being unable to arouse any response whatever with the same film. The question of why one effort failed and the other succeeded are examined by the group leaders in a workshop meeting. Suggests that the centering of discussion in the group rather than in the leader is an effective technique.

The living church, part 2: From the papacy of Innocent III to the Counter-Reformation (*Filmstrip*) Westminster Press, 1953.
205 fr., color, 35 mm.
Issued with a sound track either on records or on magnetic tape, 35 min.
With projectionist cue sheet and utilization guide.
Summary: Paintings are used to explain certain beliefs and practices of the Roman Catholic Church which were objectionable to many Christians and to describe early attempts at reform within the church, including the Waldensian movement, the work of the Franciscans and Dominicans, and the institution of the Inquisition. Traces developments which affected Christianity in England; describes the work and doctrines of John Wycliffe, John Hus, Martin Luther, Huldreich Zwingli, John Calvin, William Tyndale, John Knox, the Lollards, and the Anabaptists. Portrays the role of Ignatius Loyola in founding the Jesuit Order and discusses the 16th century attempts at reform within the Roman Catholic Church.
Credits: Direction, John Capsis; script, Allan Chase; narrators, Paul Lincoln Smith, Kermit Rolland, Paul D. Zimahind; consultants, John T. McNeill, Norman F. Langford, Paul I. Meacham; art work, Nedda Walker; music score, Robert W. Elmore; music consultant, W. Lawrence Curry.

The living church, part 3: The church in America from the Puritans to modern times (*Filmstrip*) Westminster Press, 1953.
176 fr., color, 35 mm.
Issued with a sound track either on records or on magnetic tape, 38 min.
With projectionist cue sheet and utilization guide.
Summary: Paintings are used to describe the experiences of the Puritans in England and in the New World. Traces the role of the Swedes, Catholics, Quakers, Mennonites, Presbyterians, Moravians, German Lutherans, Methodists, and Unitarians in American church history; describes the work of Roger Williams, William Penn, George Whitefield, and other outstanding church leaders. Portrays the work of the church during the Revolutionary War, on the Western Frontier, during the slavery controversy and the Civil War, in the period of rapid industrial expansion and extensive immigration, during World War I, the Depression, and World War II. Describes the efforts of the church in fostering interdenominational cooperation.
Credits: Direction, John Capsis; script, Allan Chase; narrators, Paul Lincoln Smith, Kermit Rolland, Paul D. Zimahind; consultants, John T. McNeill, Norman F. Langford, Paul I. Meacham; art work, Robert Waite Arnold; music score, Robert W. Elmore; music consultant, W. Lawrence Curry.

Machine countersunk flush rivets for aircraft (*Motion picture*) U. S. National Advisory Committee for Aeronautics, 1943.
15 min., si., b&w, 16 mm.
Summary: Shows test specimens, equipment, and methods used, and discusses the general conclusions resulting from an investigation conducted by the NACA to determine possible improvements in the shear strength, the tightness, and the flushness of rivets in simple lap joints made by different methods of flush riveting. For technical personnel, to be used with NACA Wartime report L-204: A study of the tightness and flushness of machine-countersunk rivets for aircraft.

Machine: master or slave? (*Motion picture*) Educational Film Institute of New York University. Released by New York University Film Library, 1941.
20 min., sd., b&w, 16 mm.
With guide.
Summary: Considers various problems of management in its approach to human and financial factors involved in technological development. Poses questions such as: To what extent can unemployment be relieved by the seeking of larger markets, or by the adjustment of prices, wages, or dividends? How can management coordinate its long-term self-interest with the needs of workers and consumers? Presents suggestions for discussing the directions along which progress can be made.

Machines for a land of plenty (*Filmstrip*) Pat Dowling Pictures, 1953.
25 fr., b&w, 35 mm. (The modern farm series)
Based on the book Land of plenty, by Bert S. Gittins.
Summary: Explains that, with the advent of power on the farm, many machines for a variety of jobs became practical. Shows how these developments have affected dairying, the raising of livestock, and growing of fruits and vegetables. Points out that more diversified crops add to farm income and lead to a better life for farm families.

Mammoth & mastodon, elephants of the Plains (*Motion picture*) University of Nebraska Television. Made by University of Nebraska Photographic Productions. Released by Bureau of Audio-Visual Instruction, Extension Division, University of Nebraska, 1954.
30 min., sd., b&w, 16 mm. (Great Plains trilogy, series 1: In the beginning, the primitive earth)
Summary: Traces the development of primitive elephants originating in Africa some forty million years ago, their subsequent migration to Asia and Europe, and finally, the migration of the mastodons to North America, about eight million years ago. Explains that the mammoths began their migration concurrently, arriving less than a half million years ago, during the ice age. Points out that early man on the Great Plains hunted the mammoth until, during the Pleistocene times (about ten thousand years ago) the mammoth followed the mastodon into extinction.

Meeting the needs of adolescents (*Filmstrip*) McGraw-Hill Book Co., 1953. Made by Crawley Filma.
34 fr., b&w, 35 mm. (Adolescent development series)
Based on the motion picture of the same title; correlated with the book Adolescent development, by Elizabeth B. Hurlock.
Summary: Live action photographs are used in presenting questions dealing with the efforts of the parents of a 17-year-old girl and a 14-year-old boy to prepare their children for well-adjusted adult lives. Shows how their basic physical needs are met, how their mental development is stimulated and directed, how they are guided in their spiritual growth, and how parents can develop the social conaciousness in their children which will make them good companions in later life.
Credits: Producer-director, George M. Gorman; script, Judith Crawley.

Mexico (*Filmstrip*) Life, 1953. Made by Training Films.
64 fr., b&w, 35 mm.
Based on photographic reports and articles which have appeared in Life magazine.
Summary: A tour of Mexico showing its scenic beauty and the desert areas and coastal jungles which are not suitable for cultivation. Shows the advancements in education, medicine, and agriculture that have been made available to farmers; describes the crude means of transportation which prevail in rural areas. Discusses the conquest of Mexico by Cortés and the historical significance of Hidalgo, Juárez, Díaz, and Zapata. Contrasts the life of poverty-stricken peons with that of the industrial workers of Mexico City.

Modified retropubic prostatectomy (*Motion picture*) U. S. Veterans Administration, 1955.
16 min., sd. at sd. speed, color, 16 mm.
Summary: Presents a modification of the Millin retropubic prostatectomy utilizing a midline incision in the anterior superior half of the prostatic capsule and the distal 2 cm. of the anterior bladder wall. Explains that this modification results in no need to ligate capsular veins because the midline incision parallels their course. Points out the wide exposure and rapid access to the hypertrophic tissue, enucleation under vision, rapid effective hemostasis due to direct unobstructed observation of the operative field, elimination of difficult maneuvering under the symphysis pubis, and reduced operating time. Shows how, for access to subpubic space, a generous midline or transverse abdominal incision is made to avoid trauma to the symphysis pubis.

Movements of the cardiac valves and origin of the heart sounds (*Motion picture*) Mayo Clinic, 1955.
20 min., sd., color, 16 mm.
Summary: Shows in normal and slow motion, the actions of cardiac, aortic, and pulmonic valves of the isolated perfused heart of the dog. Simultaneous electrocardiogram and phonocardiographic records accompany the activities of the heart and valves. Presents the first and second sounds of the heart. The first heart sound is silenced by excision of the valve leaflets and insertion of water-filled balloons; the second heart sound is eliminated by immobilizing the aortic valves. Includes comments and brief discussions in the form of printed subtitles.

Multiplying decimals (*Filmstrip*) Curriculum Films, 1951.
27 fr., color, 35 mm. (Decimals and percentage series)
Eastman color.
Revision of the 1949 filmstrip.
With teacher's manual.
Summary: Drawing on the student's familiarity with common fractions, explains the principle of adding the number of decimal places in the two numbers to be multiplied, to find the number of decimal places in the product. Provides practice in reducing a product to the significant numbers appropriate to it; uses the student's knowledge that fractions of a cent are usually reduced to the nearest cent, to show the importance of this principle.

Curriculum Films

Multiplying fractions (*Motion picture*) Knowledge Builders, 1948.
12 min., sd., b&w, 16 mm.
With guide.
Summary: Depicts the case of a boy who needs to multiply fractions, followed by a kitchen scene in which a girl learns to multiply fractions through using cooking recipes. Apples are used to demonstrate $\frac{1}{2} \times \frac{1}{2}$ and 1×7, and a block cut into units shows how $\frac{1}{2} \times \frac{1}{2}$ equals $\frac{1}{4}$.

Multi-purpose dams and their relation to the electric industry (*Filmstrip*) Middle West Service Co., 1953.
33 fr., b&w, 35 mm.
Summary: Explains why the electric companies are in favor of sound river development, but are opposed to tax-free subsidized electric power. Shows why hydroelectric systems whose plants must obtain their water from large multipurpose dams are often more costly than steam plants. Advocates that the government should not compete with private business and that the American people should persuade their government to support sound policies of water and soil conservation, flood control, and river development.

Nature's engineers; the beaver (*Motion picture*) William R. Eberhart. Made and released by Wild Life Films, 1947.
10 min., sd., color, 16 mm.
Summary: Describes the complete life cycle of the beaver, and shows how he builds his dams. Illustrates the features of a beaver such as his teeth that must be constantly used, and the split toe on his hind foot. Points out his enemies: the coyote and bear. Explains that other birds and animals such as geese, the sandhill crane, moose, and deer profit from the work of the beaver. Shows how the mother beaver raises her young and makes them move out to build dams of their own when two years old.
Credits: Director, William R. Eberhart; writer, Eric Strutt; narration, Van Dea Autrey; photographer, Jim Simon.

Neurosis and alcohol; an experimental study (*Motion picture*) Jules H. Masserman and Kwang S. Yum, 1943. Released by Psychological Cinema Register, Pennsylvania State University.
27 min., si., b&w, 16 mm.
Summary: Cats are trained to lift the lid of a box for food, then to feed only at a bell-light signal, and finally to press a switch to activate feeding signals. Alcohol is administered, and the patterns disappear in the order of recency and decreasing complexity of integration, until only primitive feeding reactions remain. In another experiment animals are made neurotic by severe motivational conflict. When cats are fed milk containing alcohol, complex neurotic patterns are temporarily alleviated. Some animals then prefer alcoholic milk to non-alcoholic milk until cured by relief of an underlying neurosis.
